General Studies

The general studies major of 36 advanced hours, comprising 12 advanced hours in each of three fields, is subject to the following limitations.

1. At least one field must be chosen from among those offered in the College of Arts and Sciences.
2. If more than one field is chosen from outside the College of Arts and Sciences, both may not be selected from the same school or college.
3. No more than one field may be selected from a single department within the College of Arts and Sciences.
4. A 2.5 grade point average is required on all courses attempted in the major.
5. No more than 24 hours in one field may count toward the degree.

Students also must fulfill all the basic requirements for a BA degree, which include 42 advanced hours and all university and college requirements. For more information concerning this major, including how previously earned college credit will apply toward the degree, contact the academic counselor in the Office of Student Advising, College of Arts and Sciences.
