Qualifying Exam and Dissertation

Once all course work (excluding dissertation hours) has been completed, the student then must pass a comprehensive qualifying examination. This consists of three sections: two written exams taken on site covering the core public administration courses, a written take-home exam in one field of specialization (offered in the PhD in public administration and management), and an oral examination. Successful completion results in the student's admission to candidacy for the PhD degree. Students then enroll for a minimum of 12 dissertation hours.

The doctoral candidate must submit a dissertation that contributes new knowledge to the field. The dissertation is prepared under the supervision of the major professor and a committee in accordance with the guidelines of the Toulouse School of Graduate Studies. The topic of the dissertation is selected by the student and approved by the PhD coordinator. The student qualifies for graduation once the student has defended his or her original work before the dissertation examination committee.

Emergency Administration and Planning

A Bachelor of Science with a major in emergency administration and planning is offered at the undergraduate level (see the Undergraduate Catalog for description).

Courses of Instruction

All Courses of Instruction are located in one section at the back of this catalog.

Course and Subject Guide

The “Course and Subject Guide,” found in the Courses of Instruction section of this book, serves as a table of contents and provides quick access to subject areas and prefixes.
trends, best practices and research. The program has a track-record of success that it is proud to acknowledge including the Rehabilitation Services Administration (RSA) Commissioner’s Award for Excellence in Education and Training.

The UNT Wellness and Employment Learning Lab (UNT WELL) provides a hands-on laboratory experience for students to engage in activities designed to enhance the health and well-being of individuals with disabilities and chronic illness. One such project is JobFIT, a Meadows funded program that assists individuals with psychiatric disabilities in finding gainful employment. The lab also hosts a variety of summer youth programs to assist high school students in transitioning to work. UNT WELL is a part of the Disability and Well-being Consortium, a collaboration that consists of DRSWA and the Department of Kinesiology, Health Promotion and Recreation to assist individuals with disabilities and chronic illness progress toward optimal health and well-being.

DRSWA offers course work and degree programs at both the undergraduate and graduate levels.

**Rehabilitation**

**Career Opportunities**

National commitments to improve opportunities and services for people with disabilities have affected the rehabilitation and education professions. Trends toward deinstitutionalization, community inclusion and empowerment of people with mental, emotional and physical disabilities, especially returning veterans, have led to a vast increase in the number of individuals requiring rehabilitation services within their local communities. Highly trained professionals are needed to provide services to these individuals in a wide variety of public and private settings.

Rehabilitation counseling is one of the largest professional specialties serving people with disabilities. Individuals working in this profession are employed in such settings as state and private rehabilitation agencies, community rehabilitation programs, supported employment programs, pre- and post-secondary schools, medical and psychiatric hospitals, correctional facilities, the veteran’s administration, community job sites, alcohol and drug treatment centers, community mental health centers, governmental agencies, rehabilitation programs in business and industry, and independent practice.

Students completing a Master of Science degree with a major in rehabilitation counseling from UNT’s Department of Rehabilitation, Social Work and Addictions may select from a regional and national supply of job openings.

**Research**

The Department of Rehabilitation, Social Work and Addictions conducts applied research and program evaluation projects within the department’s own rehabilitation laboratories, as well as in rehabilitation field site locations in the Dallas–Fort Worth region and the surrounding five-state region. The department’s current research programs focus on employment and disability substance abuse prevention, wellness, service delivery within the state vocational rehabilitation system, models of supported employment and community inclusion, ethnic/cultural populations, applications of quantitative EEG and brainwave biofeedback (neurofeedback) techniques for treatment of mental and physical disorders and addictions, and community rehabilitation programs. Research projects conducted by DRSWA contribute to the improvement of the department’s client services, educational programs and the body of knowledge in the fields of vocational rehabilitation, social work and addictions.

DRSWA has administered and participated in numerous projects externally funded through such sources as the U.S. Department of Education Rehabilitation Services administration, the Texas Council on Developmental Disabilities, the Texas Department of Assistive and Rehabilitative Services, the Meadows Foundation, US Aid/Higher Education Development, and the Texas Commission on Alcohol and Drug Abuse.

**Admission Requirements**

Admission to the master’s degree program with a major in rehabilitation counseling is contingent upon admission to the Toulouse School of Graduate Studies. Criteria for admission are detailed in the Admission section of this catalog and include a competitive score on the Graduate Record Examination (GRE), if required. For standardized admission test requirements, contact the department's website (www.unt.edu/rswa) or the Toulouse School of Graduate Studies. Applications to the graduate program in rehabilitation counseling are reviewed throughout the year, but students are encouraged to enter the program in the fall term/semester.

All applications should include the following:
1. DRSWA graduate program application;
2. two letters of recommendation, one from a former instructor and the other from an employer;
3. evidence of a work history with the equivalent of one year of full-time employment;
4. a personal interview with DRSWA graduate faculty members; and
5. record of GRE scores (if required) on file with the graduate school or documentation of two years of full time paid work experience in a rehabilitation setting.

Complete applications are reviewed by the DRSWA graduate faculty, who make recommendations for acceptance of applicants to the program. Acceptance or denial is determined by composite rather than a single criterion. Students are notified by letter of the faculty's recommendation on their application.

Degree Program
The department offers a graduate program leading to the following degree:
• Master of Science with a major in rehabilitation counseling.

Master of Science
The program requires a minimum of 48 semester hours of academic preparation. Interested students may also complete a thesis or problem in lieu of thesis as part of their program of study.

Rehabilitation Curriculum, 48 hours
Course work consists of basic preparatory studies in disability, educational and occupational information, counseling and case management, and the vocational rehabilitation process. The curriculum consists of the following courses.
• RHAB 5250, Topics in Rehabilitation, 3 hours (neurofeedback, private rehabilitation, assistive technology, psychiatric rehabilitation, etc.)
• RHAB 5700, Introduction to Rehabilitation, 3 hours
• RHAB 5710, Rehabilitation in a Multicultural Society, 3 hours
• RHAB 5715, Disability Issues in Human Development, 3 hours
• RHAB 5720, Rehabilitation Counseling Theories, 3 hours
• RHAB 5721, Rehabilitation Counseling Applications, 3 hours
• RHAB 5723, Group Work and the Rehabilitation Process, 3 hours.
• RHAB 5730, Medical and Psychosocial Aspects of Disability I, 3 hours
• RHAB 5731, Medical and Psychosocial Aspects of Disability II, 3 hours
• RHAB 5740, Rehabilitation Assessment, 3 hours
• RHAB 5741, Employment and Career Development, 3 hours
• RHAB 5742, Case Management and Rehabilitation Services, 3 hours
• RHAB 5770, Rehabilitation Research and Program Evaluation, 3 hours
• RHAB 5811, Practicum in Rehabilitation, 3 hours
• RHAB 5812, Internship in Rehabilitation, 6 hours
• Electives (selected from: RHAB 5125, RHAB 5150, RHAB 5250, RHAB 5450; others approved by advisor.)

The student who is lacking basic preparation in any of the above knowledge and skill areas may be required to complete prerequisite course work or complete individual studies prior to entry into one of the advanced graduate courses.

Graduate Comprehensive Examination
Candidates for the master's degree must pass a final written comprehensive examination over their course of study. In lieu of the departmental comprehensive exam, students may submit a passing score on the national certification exam for rehabilitation counselors (CRC).

Degree Plan Preparation
Students are assigned an academic advisor from among the DRSWA faculty. The academic advisor will assist the student in developing a formal degree plan by the end of the student's second term/semester in the program.

Minors
The rehabilitation counseling curriculum does not usually include a minor, but some students may choose to select a minor.

Program Accreditation and Professional Certification/Licensing
The graduate curriculum in rehabilitation counseling has been designed to satisfy the accreditation standards established by the Council on Rehabilitation Education (CORE) (1699 Woodfield Road, Suite 300, Schaumberg, IL 60173). The DRSWA rehabilitation counseling program is fully accredited by CORE.

Students completing the rehabilitation counseling program are eligible to take the examination for national certification as a rehabilitation counselor (CRC). Rehabilitation counseling students are eligible for licensure as a professional counselor by the Texas State Board of Examiners of Professional Counselors (LPC). Students seeking the LPC are required to complete 3,000 hours of supervised practice and must successfully pass the state licensing examination. Students may also complete academic requirements of the Texas Department of State Health Services for licensure as a Chemical Dependency Counselor (LCDC). The LCDC requires 4,000 hours of approved supervised work experience and successful completion of a state examination.
Financial Assistance

The Rehabilitation Services Administration (RSA) of the U.S. Department of Education often provides financial support to graduate students in rehabilitation to increase the number of qualified professionals in various rehabilitation counseling occupations. DRSWA is currently able to provide RSA scholarship and stipend assistance to qualified students to support their graduate studies in rehabilitation counseling. The availability of RSA financial support varies from year to year. Inquiries should be made at the time of application to the rehabilitation graduate program.

Social Work

Main Office
Chilton Hall, Room 218
Mailing address:
1155 Union Circle #311456

Sandra Terrell, Interim Chair
Graduate Faculty: Cready, Dash, Eve, Ignatow, Inman, Lawson, Lusky, Moore, Rodeheaver, Seward, Swan, Turner, Williamson, Yancey, Yeatts, Zafirovski.

The department offers graduate programs leading to the following degrees:
- Master of Arts, and
- Master of Science, both with majors in sociology and in long-term care, senior housing and aging services; and
- Doctor of Philosophy, with a major in sociology.

Areas of concentration include (but are not limited to) social inequality, health and illness, globalization and developing societies, and sociology of aging.

Sociology and Applied Gerontology

The Department of Applied Gerontology merged with the Department of Sociology, reuniting the two programs initiated by Hiram J. Friedsam. The combined resources and faculties provide students with a variety of training opportunities in research and application. The Master of Arts and the Master of Science degrees in sociology and the Master of Arts and Master of Science degrees in long-term care, senior housing and aging services will continue as unique degree programs. The Doctor of Philosophy degrees in sociology and in applied gerontology have been combined into the PhD with a major in sociology. Students seeking the PhD in applied gerontology must now apply for admission to the PhD in sociology program and may pursue a concentration in sociology of aging in the doctoral program.

Research

Research in sociology at UNT, including sociology of aging, covers a wide range, from studies of individuals to the global community. Examples include studies of sustainable societies and social interactions of individuals within
